

Opasraportti

HuTK - Archaeology (2012 - 2013)

Archaeology

Address: Archaeology, PL 1000, 90014, University of Oulu, Finland

Telephone: +358 29 448 3347 (office), +358 29 448 3236 (study counsellor)

Website: <http://www.oulu.fi/hutk/ylearn/>

Admission requirements and commencement of studies

Archaeology is available as a subsidiary (minor) subject to all students presently enrolled and registered at the University. The right to study Archaeology as a major subject can be obtained by successfully passing an entrance examination, held every summer. Cultural Anthropology and Archaeology have a shared entrance exam, and, after successful completion of the Basic Studies package, 20 new students are accepted annually as Archaeology majors. Students must choose between the two subjects and declare their major at the beginning of their Intermediate Level studies. Otherwise, students are free to choose their subsidiary subjects from the onset of studies.

Study guidance

Study guidance is provided by the Amanuensis, tel. +358 29 448 3236. First year students receive small group tutoring.

Archaeology

Archaeology studies people and their cultures through the material sources of information that have remained. These sources may include objects, solid constructions, or chemical changes in the soil caused by human activities. As a discipline, archaeology is multidisciplinary in nature. Traditionally, it has had much in common with the natural sciences, especially with regards to research methods. Concerning the framing of research aims, however, archaeology is nevertheless a humanistic science. In the University of Oulu, the subject is closely linked to cultural anthropology, especially during the Basic Studies phase. The aim of archaeological research is to understand and explain culture and cultural change. An archaeologist is a multidisciplinary professional versed in material culture and its study and conservation. Archaeologists work in co-operation with land users, zoning experts, and the authorities responsible for environmental conservation. The protection of archaeological cultural heritage is an integral part of environmental protection, and the ethical goal of an archaeologist is to preserve as much of the past as possible for future generations.

In the Archaeology programme the history of Finland, as well as of other continents, is studied from an anthropological perspective. The emphasis is on the archaeological cultural heritage of northern Finland and other northern areas in a global context. In addition to mastering the art of the interpreting material culture, the teaching also focuses on universal cultural processes and research methods related to handling source material. A central aim of the studies is to gain the ability to carry out archaeological research independently, which includes gathering observational data, analysis, interpretation, and presenting the findings in written form. Archaeology students have good chances to study abroad for short periods of time as a result of the numerous exchange programmes the University of Oulu has with foreign universities.

In addition to book exams, students can also complete courses by using other compensatory work such as home exams, posters, or other written assignments. Students have to agree on these alternative methods with the teacher

responsible for the course in question. Subsidiary subjects that complement a degree in Archaeology include Cultural Anthropology, Classical Archaeology, History, Art History, Museum Studies, Geology, Geography, Biology, and Environmental Protection.

Practical information

Studies in Archaeology consist of lectures, book exams, home essays, and practical exercises such as laboratory work and field courses. A curriculum is published at the beginning of each term; it is available at the programme's office (room HU340) and online at: <http://www.oulu.fi/hutk/yleark/opiskelu/opetusohjelma.html>. Information about literature related to the courses and about important events such as information sessions is published online as well as on the programme's bulletin board.

At the beginning of each academic year, students have to register at the University Student Services office. Changes of address are to be reported to the programme's office, the Student Services office, or online via WebOodi.

Students begin their studies in the Archaeology programme with a basic course in Archaeology. Examinations can be taken on the general examination days of the Faculty of Humanities or of the degree group (Group II – Cultural Studies).

Archaeology courses may also be substituted for with corresponding lectures/courses in other subjects. When taking examinations, students should remember to specify the name and code of the course they wish to receive credit for as well as the number of ECTS credits it represents. Completed courses are recorded in the Oodi register. The examination papers are kept for six months after announcement of the results.

Employment prospects

A degree in archaeology provides students with the skills to work in museums, in management of prehistoric sites, or as a researcher. Archaeology studies are also requisite when working in cultural heritage management and protection. Archaeology as a subsidiary subject is useful for students studying to become teachers of history, as it offers a good foundation for teaching courses on pre-historic human development. Furthermore, the Archaeology programme provides a solid basis for an understanding of the Finnish Northern identity, which is quite beneficial when working in various professions in the field of culture.

Study packages and learning outcomes

After completing the Archaeology–Cultural Anthropology Basic Studies package, students can describe the history, methodology, and theoretical bases of archaeology and cultural anthropology. Students can define the concepts of archaeology and cultural anthropology, and describe different aspects of research in the disciplines. Students can discuss interaction between humans and the environment in the long-term, and define the basic concepts of biological anthropology and Finnish indigenous culture.

After completing the Intermediate Studies package, students have a multifaceted view of the methods and theoretical approaches of archaeology, as well as of the different areas and aspects of archaeology. Students have the skills to apply archaeological research methods and are able to document information. Students can plan and carry out independent projects related to research or acquiring scientific information. Students can also produce short works and other written and oral presentations, based on their own expertise.

On completion of the Advanced Studies, students have the required qualifications to plan and carry out various archaeological projects and research. Students are able to produce scientific information and present the different stages of progress as well as disseminate the findings orally and in written form. Students are professionals capable of challenging independent scientific work, which requires analysis, creativity, and ethical evaluation. They can also act as experts in different demanding work settings.

Courses

Basic Studies of Archaeology and Cultural Anthropology (25 ECTS credits)

687332Y Personal Study Plan 1 (0 ECTS credits)

687300P Introduction to Archaeology (3 ECTS credits)

687301P Introduction to Classical Archaeology (2 ECTS credits)

687200P Introduction to Cultural Anthropology (5 ECTS credits)

- 687224P Introduction to Finnish Culture (5 ECTS credits)
- 687201P Development of Cultures (5 ECTS credits)
- 687225P Man and the Environment (3 ECTS credits)
- 687226P Introduction to Biological Anthropology (2 ECTS credits)

Intermediate Studies (45 ECTS credits)

Compulsory Courses

- 687336Y Personal Study Plan 2 (0 ECTS credits)
- 687308A Fieldwork Practice (8 ECTS credits)
- 687309A Theory and Methods in Archaeology (6 ECTS credits)
- 687325A Candidate's Thesis Seminar (10 ECTS credits)
- 687326A Maturity Test (Candidate's Thesis) (0 ECTS credits)

Elective Paths (21 ECTS credits total)

Students can either follow a single path or take courses from several

Research Methods

- 687338A Material Culture and Man (3 ECTS credits)
- 687339A Introduction to Human Osteology (3 ECTS credits)
- 687340A Introduction to Animal Osteology (3 ECTS credits)
- 687341A Advanced Course in Osteological Archaeology (3 ECTS credits)
- 687342A Quantitative Archaeology (3 ECTS credits)
- 687310A Natural Sciences and Archaeology (3 ECTS credits)
- 687311A Archaeology and GIS (3 ECTS credits)
- 687313A Experimental Archaeology (3 ECTS credits)

The Cultural Heritage and Society

- 687343A Archaeology and Society (3 ECTS credits)
- 687316A Conservation Course (3 ECTS credits)
- 687317A The Cultural Heritage and Its Protection (3 ECTS credits)
- 687322A Archaeology of Finland's Neighbouring Regions (3 ECTS credits)
- 687344A Historical Archaeology (3 ECTS credits)
- 687345A Ethical Questions in Archaeology (3 ECTS credits)

687346A Regional Archaeology (3 ECTS credits)

Mediterranean Archaeology

687402P Archaeology of Antiquity (9 ECTS credits)

687403P Topography and Cultural Geography of Antiquity (6 ECTS credits)

687404A Special Course in Antiquity Studies or Archaeology (6 ECTS credits)

Advanced Studies (80 ECTS credits)

Compulsory Courses

687337Y Personal Study Plan 3 (0 ECTS credits)

687329S Seminar (10 ECTS credits)

687330S Master's Thesis (40 ECTS credits)

687331S Maturity Test (Master's Thesis) (0 ECTS credits)

687328S Employment-Oriented Studies (9 ECTS credits)

687327S Theoretical and Methodological Studies in Support of Master's Thesis (9 ECTS credits)

Elective Courses

Students choose 12 ECTS credits worth of studies

687347S Advanced Course in Osteological Archaeology (3 ECTS credits)

687318S Presenting Research Findings (3 ECTS credits) (*Ikäheimo*)

687348S Global Processes in Historical Archaeology (3 ECTS credits)

687349S Northern Urbanization and Archaeology (3 ECTS credits)

687350S Lecture Portfolio (3 ECTS credits)

Tutkintorakenteisiin kuulumattomat opintokokonaisuudet ja -jaksot

Opintojaksojen kuvaukset

Tutkintorakenteisiin kuulumattomien opintokokonaisuuksien ja -jaksojen kuvaukset

687347S: Advanced Course in Osteological Archaeology, 3 op

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish

Timing:

4th or 5th year

Learning outcomes:

Students learn the methodology of a specific area of osteological archaeology, e.g., biomechanics, anatomy, or osteometry. Upon completing the course, students can independently and critically apply their skills in the study of archaeological bone materials.

Contents:

A specific area of osteological archaeology

Mode of delivery:

Contact teaching or self study

Learning activities and teaching methods:

Lectures, exercises, seminar work, book exam, or study circle

Target group:

Students of Archaeology

Prerequisites and co-requisites:

Basic and Intermediate Studies

Recommended or required reading:

Material handed out in the course

Assessment methods and criteria:

To be negotiated with the course teacher

Grading:

0-5 or pass/fail

Person responsible:

Professor Milton Núñez

Working life cooperation:

No

687311A: Archaeology and GIS, 3 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Okkonen, Jari Pekka

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish

Timing:

Third or fourth year

Learning outcomes:

Upon completing the course, students can import a database into a GIS system, produce archaeologically sound spatial analyses, and present results as a map.

Contents:

Lectures, laboratory exercises, carrying out an exercise project or optionally a book exam

Mode of delivery:

Contact teaching or self study

Learning activities and teaching methods:

10 hours of lecturers, 50 hours of laboratory exercises, and carrying out an exercise project or optionally completing a book exam

Target group:

Students of Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Material handed out at lectures.

For book exam: James Conolly, Geographic Information Systems in Archaeology (Cambridge Manuals in Archaeology 2006)

Assessment methods and criteria:

Exercise project or optional book exam

Grading:

0-5

Person responsible:

University Lecturer Jari Okkonen

Working life cooperation:

No

3

Language of instruction:

Finnish

Timing:

Second or third year

Learning outcomes:

Upon completing the course, students can explain the significance of archaeology as a part of society and analyse how the archaeological past is reflected in other parts of society.

Contents:

Intersections of archaeology and contemporary society, governmental archaeology, archaeology of today, pseudoarchaeology, popularising the past, and archaeology as a part of tourism and popular culture

Mode of delivery:

Contact teaching or self study

Learning activities and teaching methods:

24 hours of lectures. Exam. Optionally a book exam

Target group:

Students of Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Materials handed out at lectures.

For book exam: e.g., C.J. Holtorf, From Stonehenge to Las Vegas: Archaeology as Popular Culture 2005;

J.A. Sabloff, Archaeology Matters: Action Archaeology in the Modern World (2008)

Or alternative works according to agreement with the lecturer

Assessment methods and criteria:

Exam. Optionally a book exam

Grading:

0-5

Opettajat: Ikäheimo, Janne Petteri

Opintokohteen kielet: Finnish

ECTS Credits:

10

Language of instruction:

Finnish

Timing:

Second or third year

Learning outcomes:

Upon completing the course, students can carry out small research projects with restricted archaeological source material. Students can apply methods that are relevant from the perspective of the subject of the research in handling research materials, evaluate their observations on the material and the present findings based on their comparative analysis in the form of a short written thesis.

Contents:

Producing a written thesis on a narrow subject. Analysing archaeological observational material and doing practical research. Writing and presenting scientific text, and oral argumentation that delves into the central questions and themes of archaeological research

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Participation in at least 10 seminars. Presenting a research plan, and the finished thesis in a seminar, acting as a peer reviewer, and active participation in seminar work. 20 hours total teaching

Target group:

Students majoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Assessment methods and criteria:

Active participation in seminar work, presenting a research plan and the finished thesis, acting as a peer reviewer.

Grading:

0-5

Person responsible:

Voimassaolo: 01.08.2009 -

Opiskelumuoto: Basic Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Anneli Meriläinen-Hyvärinen

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay687224P Basic course on Finland's Culture (OPEN UNI) 5.0 op

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

5 credits. The course consists of two parts:

1) Part A, Introduction to Finnish Indigenous Culture: 2,5 credits

1) Part A, Introduction to the Pre-history of Finland: 2,5 credits

Language of instruction:

Finnish

Timing:

1st year, autumn semester

Learning outcomes:

Part A, Introduction to Finnish Indigenous Culture: Upon completing the course, students can describe the basics of the material culture, regional, social, and economical aspects of early indigenous Finnish culture.

Part B, Introduction to the Pre-history of Finland: Upon completing the course, students recognize the central features of the prehistoric developments in Finland, and can identify regionally and periodically the central sources of information on the subject.

Contents:

Part A, Introduction to Finnish Indigenous Culture: The basics of the material culture, regional, social, and economical aspects of early indigenous Finnish culture.

Part B, Introduction to the Pre-history of Finland: Human settlement of Finland after the Ice Age, cultural developments from the Stone Age to the beginning of recorded history in the light of artefacts and other objects /indicative materials related to human activities and environments, the history and study of prehistoric Finland.

Mode of delivery:

Contact teaching or self study

Learning activities and teaching methods:

Part A, Introduction to Finnish Indigenous Culture: Lectures and independent exercises. 18 hours of instructed study.

Part B, Introduction to the Pre-history of Finland: Lectures, formal lecture examination, 18 hours of instructed study, a book examination as an option.

Target group:

First-year students of Cultural Anthropology and Archaeology

Prerequisites and co-requisites:

None

Recommended optional programme components:

None

Recommended or required reading:

Material is handed out during lectures.

Part B, Introduction to the Pre-history of Finland: Literature for possible book exam is agreed upon individually with the teacher responsible.

Assessment methods and criteria:

Part A: Examination

Part B: Examination, a book examination as an option

Grading:

0-5

Person responsible:

Part A: University Lecturer Anneli Meriläinen-Hyvärinen

Part B: University Lecturer Janne Ikkäheimo

687316A: Conservation, 3 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Heinonen Jari

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish

Timing:

2nd or 3rd year

Learning outcomes:

Upon completing the course, students can describe what conservation means, identify the most important factors that damage cultural material, and can define the concept of pre-emptive conservation.

Contents:

Conservation and restoring, factors damaging cultural material, organic and inorganic materials and their decomposition, familiarization with the work of a conservator and the various stages involved

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

24 hours of lecturers, demonstrations and/or excursion. Different alternative modes of delivery, such as 70 hours of practical exercises or literature read

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Materials handed out at lectures or literature to be agreed upon individually with lecturer

Assessment methods and criteria:

Examination

Grading:

0 - 5

3

Language of instruction:

Finnish

Timing:

Third or fourth year

Learning outcomes:

Upon completing the course, students recognize the central significance of cultural heritage in the formation of national identities, and can define the connections between protecting cultural heritage and societal power. Students can also analyse the significance of information on cultural heritage in a civic society.

Contents:

Familiarization with the central concepts of research and protection of cultural heritage, and a contemplation of the social significance of cultural heritage. A look into how archaeological cultural heritage is connected to the rights of native peoples or national identities, or how cultural heritage affects reproducing the past, and the culture and politics of history

Mode of delivery:

Contact teaching or self study

Learning activities and teaching methods:

24 hours of lectures. Lecture exercises, group discussion, and a revision exam, or optionally a book exam.

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Material handed out during the course.

For book exam: e.g., Robin Skeates, *Debating the Archaeological Heritage* (Duckworth 2000); Laurajane Smith & Emme Waterton, *Heritage, Communities and Archaeology* (Duckworth 2009)

Assessment methods and criteria:

Lecture exercises, group discussion, and a revision exam, or optionally a book exam.

Grading:

0-5

Person responsible:

University Lecturer Jari Okkonen

Working life cooperation:

Arvostelu: 1 - 5, pass, fail

Opettajat: Okkonen, Jari Pekka

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

9

Language of instruction:

Finnish

Timing:

Third or fourth year

Learning outcomes:

Upon completing the course, students can apply their studies of archaeology in working life, and have acquired skills to further their employment in different tasks after completing their degree.

Contents:

Working as a trainee, in field work, in an archive, or in a museum

Mode of delivery:

Independent study

Learning activities and teaching methods:

Independent and instructed work and independent study

Target group:

Students majoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology, Intermediate Studies in Archaeology

Assessment methods and criteria:

A learning diary/report (4–6 pages) on the training is written and returned to the teacher responsible at the end of the training. (Rule of conversion: 1 week of reported training = 1 ECTS credit)

Grading:

Pass/fail

Person responsible:

University Lecturer Jari Okkonen

Working life cooperation:

Working as a trainee, in field work, in an archive, or in a museum

687345A: Ethical Questions in Archaeology, 3 op

Voimassaolo: 01.08.2011 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Okkonen, Jari Pekka

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish

Timing:

Second or third year

Learning outcomes:

Upon completing the course, students recognize ethical questions related to archaeology. After completing the course, students can explain the effect of ethical viewpoints on research. Students can also critically analyse the ethical backgrounds of research.

Contents:

Central ethical questions in archaeological research, related to, e.g., study of human remains, the cultural heritage of native peoples, or problems in protection and conservation

Mode of delivery:

Contact teaching or self study

Learning activities and teaching methods:

24 hours of lectures. Lecture exercises, group discussion and revision exam. Book exam option

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Material handed out during the course.

For book exam: e.g., Chris Scarre & Geoffrey Scarre, *The Ethics of Archaeology: Philosophical Perspectives on Archaeological Practice* (Cambridge University Press 2006)

Assessment methods and criteria:

Revision exam, book exam option

Grading:

0-5

Person responsible:

University Lecturer Jari Okkonen and Amanuensis Timo Ylimaunu

Working life cooperation:

No

687313A: Experimental Archaeology, 3 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Ikäheimo, Janne Petteri

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish

Timing:

Second or third year

Learning outcomes:

Upon completing the course, students can apply experimental methods to produce archaeological information. Students can critically analyse the results of an experiment and present them in written form.

Contents:

Guided planning and implementation of an archaeological experiment. Producing and documenting a reconstruction, or a reported participation in living (pre-)history

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Introduction lectures, followed by independent work. A report is written on the work, detailing completed work and central observations. 6 + 6 hours of teaching total. Optionally a book exam

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Materials handed out during lectures.

For book exam: e.g., J.R. Ferguson (ed.), *Designing Experimental Research in Archaeology: Examining Technology Through Production and Use* (2010)

Alternative literature may be agreed upon with the lecturer.

Assessment methods and criteria:

Introduction lectures, independent work and a report. Optionally a book exam.

Grading:

0-5

Person responsible:

University Lecturer Janne Ikäheimo

Working life cooperation:

No

687308A: Fieldwork Practice, 8 op**Opiskelumuoto:** Intermediate Studies**Laji:** Course**Vastuuyksikkö:** Faculty of Humanities**Arvostelu:** 1 - 5, pass, fail**Opettajat:** Okkonen, Jari Pekka**Opintokohteen kielet:** Finnish**Voidaan suorittaa useasti:** Kyllä**ECTS Credits:**

8 credits:

Part A: Dig Training 2 cr

Part B: Post-dig Work Course 2 cr

Part C: Inventory Course 2 cr

Part D: Archaeological Excursions 1 cr

Part E: Usage of Terrain-Measuring Equipment 1 cr

Language of instruction:

Finnish

Timing:

1st year, spring, and 2nd year

Learning outcomes:

Upon completing the course,

- part A: students can use and apply research and documentation methods in archaeological dig sites, and use research equipment to find new archaeological source materials,

- part B: students can organize, classify and archive source material and documentation from an archaeological field project, and prepare a corresponding field report,
- part C: students have knowledge of, and can independently apply, the practices related to archaeological inventorying, the finding of new sites, documenting, and the reporting of finds. Students can estimate the importance of their observations of the terrain in regards to land use, and know the legal dimensions of archaeological protection of cultural heritage,
- part D: students can recognize different archaeological points of interest in the terrain,
- part E: students have the basic skills to use tacheometers, RTK-GPS devices, and laser scanners in tasks related to archaeological documenting and geographical information gathering.

Contents:

Part A, Dig Training: Preparation for an archaeological dig, collecting and documenting source materials in the field, operating digging and documenting equipment, immediate post-dig work, and maintenance and storage of research equipment;

Part B, Post-dig Work Course: Handling, identifying, and cataloguing finds and samples. Organizing, archiving, and working on documentation from digs. Preparing field reports and additional related documents;

Part C, Inventory Course: Introduction lecture, 2 hours. Familiarization with GPS equipment in the vicinity of the university. 50 hours of instructed terrain exercises, and 16 hours of laboratory work related to reporting sites;

Part D, Archaeological Excursions: A one-day excursion to an archaeological site in Northern Ostrobothnia;

Part E, Usage of Terrain-Measuring Equipment: Four days of instructed familiarization with the usage of different devices. Laboratory exercises focus on transferring data collected in the field into *geographic information systems (GIS)*.

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Part A, Dig Training: Participation in two weeks of instructed field practice on a dig;

Part B, Post-dig Work Course: Participation in guided laboratory work (Post-Dig Work Course) for two weeks, and independent exercises. 60 hours total teaching;

Part C, Inventory Course: Lectures, instructed terrain and laboratory exercises;

Part D, Archaeological Excursions: 30 hours of instructed terrain exercises;

Part E, Usage of Terrain-Measuring Equipment: 30 hours of instructed terrain exercises and 5 hours of instructed laboratory exercises.

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Parts C-E: Materials handed out during course

Assessment methods and criteria:

Lectures, instructed terrain and laboratory exercises.

Grading:

Pass/fail

Person responsible:

Part A: Amanuensis Timo Ylimaunu, University Lecturer Janne Ikäheimo; part B: Timo Ylimaunu, Janne Ikäheimo, Researcher Jari Heinonen; parts C-E: University Lecturer Jari Okkonen

Working life cooperation:

Part A, Dig Training: Participation in two weeks of instructed field practice on a dig

687348S: Global Processes in Historical Archaeology, 3 op

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Timo Ylimaunu

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish

Timing:

Third to fourth year

Learning outcomes:

Upon completing the course, students can discuss the central features of global historical archaeological research, and compare and generalize different areas in the archaeological study of global processes.

Contents:

Archaeological research on globalization, study of global material culture from various theoretical viewpoints

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

16 hours of lectures and literature.

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology, Intermediate Studies in Archaeology

Recommended or required reading:

Materials handed out during the course, or

Gavin Lucas, *An Archaeology of Colonial Identity: Power and Material Culture in the Dwars Valley, South Africa* (New York 2006/Oxford 2006); or

Mary C. Beaudry & James Symonds, *Interpreting the Early Modern World: Transatlantic Perspectives* (Springer 2010)

Assessment methods and criteria:

The course can be completed by exam or essay

Grading:

0-5

Person responsible:

Amanuensis Timo Ylimaunu

No

687344A: Historical Archaeology, 3 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Timo Ylimaunu

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish

Timing:

Second or third year

Learning outcomes:

Upon completing the course, students can recognize and analyse the research goals of historical archaeology. Students can compare the central theoretical features of the early modern period and the modern period.

Contents:

The placing of historical archaeology in the field of archaeology, source materials of historical archaeology, different theoretical approaches to historical processes

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

16 hours of lectures and literature.

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Material handed out at lectures and/or Dan Hicks & Mary C. Beaudry (ed.), *The Cambridge Companion to Historical Archaeology* (Cambridge 2006); or
 Martin Hall & Stephen W. Silliman (eds.), *Historical Archaeology* (Blackwell 2006); or
 Anders Andre#n, *Between Artifacts and Texts: Historical Archaeology in Global Perspective* (Plenum Press 1998)

Assessment methods and criteria:

Exam or essay optionally

687225P: Humans and Environment, 3 op

Voimassaolo: 01.08.2009 -

Opiskelumuoto: Basic Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Okkonen, Jari Pekka

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay687225P Humans and Environment (OPEN UNI) 3.0 op

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3 credits

Part A: 1,5 cr, part B: 1,5 cr

Language of instruction:

Finnish

Timing:

1st year, spring

Learning outcomes:

Part A: Upon completing the course, students can describe the relation between protecting cultural heritage and protecting the environment, as well as the interaction between man and nature in the long-term. Students can discuss how specific cultures have adapted to their environments

Part B1: Upon completing the course, students can define the concept of a source in archaeology, and independently find information on sources. Students can combine and modify existing research information into a written presentation, following the principles of scientific writing;

Part B2: Upon completing the course, students can describe the fundamentals of the interaction between man and environment, and man's concept of nature. Students can also define man's relation to his immediate environment and the cultural factors that control it, and discuss contemporary environmental questions and their effects on local communities.

Contents:

Part A:

Part B1, Archaeology as an operational environment: Study of the basic concepts of producing archaeological information (e.g. source, research literature), the main types of archaeological sources and acquiring information on them, and the basics of scientific writing

Part B2, The central concepts and perspectives of environmental anthropology (lectures, 1,5 credits)

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Part A: 15 hours of lectures. Lecture exercises, group discussion and revision test

Part B1: Lectures and producing a written work, 2–3 pages in length, according to given instruction. 12 hours of instructed study

Part B2: Lectures

Target group:

First-year students of Cultural Anthropology and Archaeology

Prerequisites and co-requisites:

None

Recommended optional programme components:

None

Recommended or required reading:

Lecture hand-outs and literature

Assessment methods and criteria:

Lecture exercises, group discussion and revision test/examination

Grading:

0-5

Person responsible:

Part A: University Lecturer Jari Okkonen

Part B1: University Lecturer Janne Ikäheimo, part B2: University Teacher of Cultural Anthropology

Working life cooperation:

687340A: Introduction to Animal Osteology, 3 op**Opiskelumuoto:** Intermediate Studies**Laji:** Course**Vastuuyksikkö:** Faculty of Humanities**Arvostelu:** 1 - 5, pass, fail**Opintokohteen kielet:** Finnish**Voidaan suorittaa useasti:** Kyllä**ECTS Credits:**

3

Language of instruction:

English

Timing:

2nd or 3rd year

Learning outcomes:

Upon completing the course, students can recognize the bones of the most common mammals, fish, and birds in Finland, and archaeological bone materials. Students can deduce the age and gender of the animals from the bones using the most common quantification methods used in animal osteology.

Contents:

Finland's animals and their features in skeletal morphology, and using the features to recognize archaeological bone materials from a specific animal. Deducing age and gender and estimating body size from animal skeletons. Questions regarding quantification of animal skeletons. Exercises familiarize students with practical identifying and describing of animal skeletons

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

24 hours of lectures and 24 hours of exercises. Exam

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Materials handed out at lectures

Assessment methods and criteria:

Exam

Voimassaolo: 01.08.2009 -

Opiskelumuoto: Basic Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay687226P Introduction to Biological Anthropology (OPEN UNI) 2.0 op

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

2

Language of instruction:

Lectures are in English; the oral exam in either Finnish/Swedish or in English

Timing:

First year

Learning outcomes:

This course provides a general but comprehensive look at biological anthropology, focusing in the evolution of the human species on the basis of fossil and genetic evidence. Upon successful completion of this course, students will have a basic knowledge of the evolutionary processes that led to modern humans, and should thus be able to identify the different hominine species.

Contents:

Basic concepts of biological anthropology, research methods and interpretations

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Lectures and oral exam

Target group:

First-year students of Cultural Anthropology and Archaeology

Prerequisites and co-requisites:

None

Recommended optional programme components:

None

Recommended or required reading:

Suggested readings given in class

Assessment methods and criteria:

Oral exam in either Finnish/Swedish or in English

687339A: Introduction to Human Osteology, 3 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish or English

Timing:

2nr or 3rd year

Learning outcomes:

Upon completing the course, students can identify the bones of the human body, and see if a particular bone is from the right or left side, define a skeleton's age and gender, recognize non-metric features and pathologies, reconstruct a the body's weight and height using the skeleton, and construct population demographics using skeleton populations. After completing the course, students are capable of basic independent osteological study.

Contents:

The human skeleton and features of skeletal morphology. Excavating human bones and things to consider during the excavation regarding later study. Factors governing the preservation of bones and handling bones at dig sites. Defining age and gender and estimating body size. Recognizing non-metric features and pathologies.

Constructing population demographics from entire skeleton populations. Exercises familiarize students with human bones and recognizing and describing osteological features, the goal of the course

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

24 hours of lectures and 24 hours of exercises. Exam

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Materials handed out during lectures

Assessment methods and criteria:

Exam

Grading:

0-5

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish or English

Timing:

Third or fourth year

Learning outcomes:

Upon completing the course, students can cite different studies from their field, argue their own opinions clearly, and reflect their views in connection with research on the field in a multifaceted way. Students can reflect what they hear based on previous studies.

Contents:

Students attend guest lectures or a public defence of a thesis and write a learning diary. Students must also fill out a form which details the lecture's subject matter, date and time, length in hours, and contain a signature from the lecturer, the presenter, or from a faculty staff member who also attended. For the lecture portfolio, students must attend 24 hours total guest lectures or public defences

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Lectures/presentations and a learning diary. 24 hours of teaching

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology, Intermediate Studies in Archaeology

Assessment methods and criteria:

Lecture portfolio

Grading:

0-5

Person responsible:

687330S: Master's thesis, 40 op**Opiskelumuoto:** Advanced Studies**Laji:** Diploma thesis**Vastuuyksikkö:** Faculty of Humanities**Arvostelu:** 1 - 5, pass, fail**Opintokohteen kielet:** Finnish**ECTS Credits:**

40

Language of instruction:

Finnish

Timing:

Fifth year

Learning outcomes:

Upon completing the course, students can independently carry out research work. Students use relevant research methods and theories in their work. Students can present the research process and results in written form as scientific writing.

Contents:

Producing an Master's Thesis

Mode of delivery:

Self study

Learning activities and teaching methods:

Recommended length for the thesis is approx. 60 pages. If the thesis is based on self-collected observational materials, i.e., independent field objects or material study, 40 pages is sufficient. A Master's Thesis can be a written work based on archaeological source materials, e.g., a collection of objects and archive materials. The thesis can also be presented in other formats, such as on a CD, as an HTML page, or as a PDF document. A

Master's Thesis in portfolio form is also possible. In that case, the thesis folder can be comprised of, e.g., objects, pictures, or software in addition to a written summary. It can contain video or multimedia presentations. Possibility to produce a Master's Thesis in portfolio form should be agreed upon individually with the professor

Target group:

Students majoring in Archaeology

Prerequisites and co-requisites:

Basic and Intermediate Studies

Assessment methods and criteria:

Producing an Master's Thesis

Grading:

0-5

Person responsible:

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish

Timing:

Second or third year

Learning outcomes:

Upon completing the course, students can analyse the manifestations of material cultures of the past from different theoretical viewpoints, using appropriate research methods. Students can define how objects express human thought in different social and cultural contexts.

Contents:

The concept of object biography and theories and interpretation models regarding material culture, acquiring raw materials, ancient technologies, methods aiming to organize material culture, usage imprint and material research

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Lectures and related reading. Can be completed with a formal lecture examination or optionally a book exam. 18 hours total teaching

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Materials handed out at lectures. For book exam, e.g., H.M.L. Miller, *Archaeological Approaches to Technology* (2009); or A. Jones, *Memory and Material Culture* (2007)

Assessment methods and criteria:

Lecture examination or optionally a book exam.

Grading:

0-5

Person responsible:

Arvostelu: 1 - 5, pass, fail

Opettajat: Ikäheimo, Janne Petteri

Opintokohteen kielet: Finnish

ECTS Credits:

0

Language of instruction:

Finnish or Swedish (or native language)

Timing:

Third year, spring semester

Learning outcomes:

Students can write an essay, of high quality in language and content, based on a set question, in which they present the central theoretical and methodological backgrounds and findings of their thesis in an evaluative manner.

Mode of delivery:

Self study

Learning activities and teaching methods:

The Maturity Test can be written on a faculty exam date

Target group:

Students majoring in Archaeology

Prerequisites and co-requisites:

Candidate's Thesis

Assessment methods and criteria:

An essay written in an exam setting

Grading:

Pass/fail

Person responsible:

Professor Milton Nunez, University Lecturer Janne Ikäheimo and University Lecturer Jari Okkonen

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

5 credits

Part A: 2,5 cr

Part B: 2,5 cr

Language of instruction:

Part A: Lectures are in English; poster and oral presentation in either Finnish/Swedish or in English

Part B: Finnish

Timing:

First year

Learning outcomes:

Part A: The course deals with the origins and development of societies in the Old and New Worlds. It examines the introduction of food production and its irreversible consequences for humanity, and analyses the trends toward increasing economic, social, and political complexity that led to the rise of early states. Upon successful completion of this course, students will be able to describe the processes that led to plant and animal domestication and the eventual rise of preindustrial states throughout the world.

Part B: Upon completing the course, students can describe the central developments in northern Finnish culture from the 17th century to modern day. Students can also discuss changes in the nature-dependent way of life, adaptation to it, and social and cultural factors affecting it, from an ethnographical perspective, using examples.

Contents:

Part A: Factors and patterns which shape the development of cultures.

Part B: The change of the nature-dependent way of life, and its ecological, social, technical and economical aspects and their effects on northern Finland from the 17th century to modern day.

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Part A: Lectures and oral exam or poster.

Students majoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Cultural Anthropology and Archaeology, Intermediate Studies in Archaeology

Assessment methods and criteria:

Written study plan

Grading:

Pass

Person responsible:

Teacher tutor/amanuensis

Working life cooperation:

No

687352S: Presenting Research Findings, 3 op**Opiskelumuoto:** Advanced Studies**Laji:** Course**Vastuuyksikkö:** Faculty of Humanities**Arvostelu:** 1 - 5, pass, fail**Opettajat:** Ikäheimo, Janne Petteri**Opintokohteen kielet:** Finnish**Voidaan suorittaa useasti:** Kyllä**ECTS Credits:**

3

Language of instruction:

Finnish

Timing:

Fourth or fifth year

Learning outcomes:

Upon completing the course, students can produce written publications that follow the set rules of the findings of their thesis for the scientific community, create posters and present their findings in popular form, e.g., as a public lecture.

Contents:

The practicalities of scientific publishing and presenting

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Lectures on publishing and presenting and instructed exercises in a computer lab. Independent work with the aim of publishing and creating a poster on their Master's Thesis or other research projects. 10 + 20 hours total teaching

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology, Intermediate Studies in Archaeology

Recommended or required reading:The course uses the University's *Tutkimuksen työkalupakki* webpage as reading material: <https://wiki oulu.fi/pages/viewpage.action?pageId=8290760>**Assessment methods and criteria:**

Independent work with the aim of publishing and creating a poster on their Master's Thesis or other research projects.

Grading:

0-5

Person responsible:

University Lecturer Janne Ikäheimo

Working life cooperation:

No

687342A: Quantitative Archaeology, 3 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Okkonen, Jari Pekka

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish

Timing:

Second or third year

Learning outcomes:

Upon completing the course, students can use archaeological source materials to set questions that are interesting from a quantitative point of view, and are capable of using complex statistical research methods.

Contents:

Lectures, exercises, or optionally a book exam

Mode of delivery:

Contact teaching or self study

Learning activities and teaching methods:

Lectures, exercises, or optionally a book exam. Total of 24 hours + 24 hours of teaching.

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Materials handed out at lectures.

For book exam:

Mike Fletcher & Gary Lock, Digging Numbers: Elementary Statistics for Archaeologists (Oxford University School of Archaeology Monographs 33, second edition 2005)

Assessment methods and criteria:

Lectures and exam, optionally a book exam

Grading:

0-5

Person responsible:

University Lecturer Jari Okkonen

Working life cooperation:

No

687346A: Regional Archaeology, 3 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Okkonen, Jari Pekka
Opintokohteen kielet: Finnish
Voidaan suorittaa useasti: Kyllä

ECTS Credits:

3

Language of instruction:

Finnish

Timing:

Third or fourth year

Learning outcomes:

Upon completing the course, students have a basic knowledge of the pre-history and cultural development of a specific geographical area outside Finland, e.g., a country or a continent.

Contents:

A familiarization with the pre-history of a country or continent and comparison with other pre-historic cultures

Mode of delivery:

Contact teaching or self study

Learning activities and teaching methods:

24 hours of lectures. Lecture exercises, group discussion, and a revision exam, or optionally a book exam on a book to be agreed upon by the teacher

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Materials handed out during the course

Assessment methods and criteria:

Lecture exercises, group discussion, and a revision exam, or optionally a book exam

Grading:

0-5

Person responsible:

University Lecturer Jari Okkonen

Working life cooperation:

No

687329S: Seminar, 10 op**Opiskelumuoto:** Advanced Studies**Laji:** Course**Vastuuyksikkö:** Faculty of Humanities**Arvostelu:** 1 - 5, pass, fail**Opettajat:** Eero Jarva**Opintokohteen kielet:** Finnish**ECTS Credits:**

10

Language of instruction:

Finnish or English

Timing:

Third or fourth year

Learning outcomes:

Upon completing the course, students can carry out an independent research project. Students have prepared their own thesis in teaching-oriented interaction with the seminar group and the teachers.

Contents:

Presenting a Master's Thesis section by section, e.g., first a research plan and a disposition proposal, introduction and a chapter of the thesis, and finally the entire manuscript

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Producing and presenting written exercise works, acting as an opponent for a fellow student's work and seminar work.

Target group:

Students majoring in Archaeology

Prerequisites and co-requisites:

Basic and Intermediate Studies

Recommended or required reading:

Literature related to the area being researched and other research materials

Assessment methods and criteria:

Written exercise works, acting as an opponent, seminar work.

Grading:

Pass/fail

Person responsible:

Professor Milton Núñez and University Lecturer Eero Jarva

Working life cooperation:

No

687404A: Special course of Classics or archaeology, 6 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Eero Jarva

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6

Timing:

Second to third year

Learning outcomes:

Students supplement the knowledge they learned in the Introduction to Classical Archaeology course (687301P) with an aspect of antiquity studies or archaeology. Students are also able to discuss the methods used in the particular field of study and find more information on them.

Contents:

Free choice from the following:

- a) *Numismatics of Antiquity* (1.5–3 ECTS credits)
- b) *Epigraphy of Antiquity* (1.5–3 ECTS credits)
- c) *Papyrus Research* (1.5 ECTS credits)
- d) *History of Antiquity* (1–3 ECTS credits)
- e) *Economy of Antiquity* (2 ECTS credits)
- f) *Topography of Antiquity* (to be determined with lecturer)

Mode of delivery:

Self study

Learning activities and teaching methods:

Independent study and/or essay

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Introduction to Classical Archaeology (687301P)

Recommended or required reading:

Agreed upon based on choice of subject matter

Assessment methods and criteria:

Written examination and/or essay

Grading:

0-5

Person responsible:

University Lecturer Eero Jarva

Working life cooperation:

No

687327S: Studies Associated with Themes of the MA Thesis, 9 op

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Eero Jarva

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

9

Language of instruction:

Finnish or English

Timing:

Third or fourth year

Learning outcomes:

Upon completing the course, students can use and analyse research materials related to the subject matter of their Master's Thesis. Students recognize and can apply scientific methods and theories in their work.

Contents:

Conceiving the width of problems regarding the thesis, independently collecting and handling source materials, studying research on the subject matter, studying the methodological and theoretical framework central to the thesis

Mode of delivery:

Contact teaching and self study

Learning activities and teaching methods:

Lectures and literature

Target group:

Students majoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology, Intermediate Studies in Archaeology

Recommended or required reading:

Literature and other source materials related to the subject matter,

Assessment methods and criteria:

Self study and examination

Grading:

0-5

Person responsible:

Professor Milton Núñez

Working life cooperation:

No

687309A: Theory and Methods of Archaeology, 6 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Ikäheimo, Janne Petteri

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Part A, Research Methods in Archaeology: 3 cr

Part B, Theories in Archaeology: 3 cr

Language of instruction:

English and Finnish

Timing:

Part A: 1st or 2nd year

Part B: 2nd or 3rd year

Learning outcomes:

Part A: Upon completing the course, students can define the central research methods of producing archaeological information, and discuss their possible applications in specific archaeological source materials and settings.

Part B: Students can present examples of different theories in archaeology. Students can critically analyse strengths and weaknesses of particular theoretical trends, and can discuss the significance of theory to the accumulation of archaeological information.

Contents:

Part A: Localizing archaeological sites through prospecting and inventorying, main principles of research on archaeological digs, dating samples with methods of archaeology and natural sciences, and using archaeological source material and reference material in research, with a focus on human activities and the environment

Part B: Central theoretical trends in archaeology, related to landscapes, identity, behaviourism, and cognitive archaeology, among others

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Part A: Course book, and supporting lectures. A single exam for the lectures and course book. 22 hours total teaching

Part B: Lectures and group discussions, grading based, e.g., on a learning diary or an oral exam. 24 hours total teaching

Target group:

Students of Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

K. Greene & T. Moore, *Archaeology: An Introduction* (5th edition 2010) (pp. 51–248)

Assessment methods and criteria:

Part A: exam for the lectures and course book

Part B: lectures and group discussions, grading based, e.g., on a learning diary or an oral exam

Grading:

0-5

Person responsible:

Professor Milton Núñez and University Lecturer Janne Ikäheimo

Working life cooperation:

No

687403P: Topography and cultural geography of the Classical world, 6 op

Opiskelumuoto: Basic Studies

Laji: Course

Vastuuyksikkö: Faculty of Humanities

Arvostelu: 1 - 5, pass, fail

Opettajat: Eero Jarva

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6

Language of instruction:

English

Timing:

Second to third year

Learning outcomes:

Upon completing the course, students can describe the central features of the cultural geography of Antiquity, and unique features in the topography of an ancient city or a smaller area.

Contents:

A topographical overview of Antiquity and a close look at the topography of a city or smaller area

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Lectures and literature

Target group:

Students majoring or minoring in Archaeology

Prerequisites and co-requisites:

Basic Studies in Archaeology and Cultural Anthropology

Recommended or required reading:

Lecture materials and literature

Assessment methods and criteria:

Examination

Grading:

0-5

Person responsible:

Lecturer Eero Jarva

Working life cooperation:

No
