

# Opasraportti

## Open University - Health Sciences (2013 - 2014)

The following subjects can be studied in the Open University:

- Nursing Science
- Rehabilitation Science
- Health Management Science
- Health Education

## Tutkintorakenteisiin kuulumattomat opintokokonaisuudet ja -jaksot

- ay352147A: A multiprofessional management in health care (OPEN UNI), 8 op  
ay352214A: Administrative law and public employment and labour law (OPEN UNI), 8 op  
ay402953A: Advanced Course in the Didactics of Health Studies (OPEN UNI), 5 op  
ay350007Y: Applied statistics and ADP (OPEN UNI), 5 op  
ay352114A: Bachelor Thesis and Written Maturity Test (OPEN UNI), 6 op  
ay040600P: Basic studies in rehabilitation (OPEN UNI), 5 op  
ay402961P: Basics of Anatomy and Physiology (OPEN UNI), 5 op  
ay402951P: Basics of the Didactics of Health Education and Health Studies (OPEN UNI), 5 op  
ay402103P: Challenges to the Psychological Development of Children and Adolescents (OPEN UNI), 5 op  
ay402957A: Coping and Intoxication (OPEN UNI), 5 op  
ay040617P: Development and evaluation of rehabilitation science I (OPEN UNI), 5 op  
ay350031P-02: Ethics in nursing (OPEN UNI), 6 op  
ay351145P: Evaluation and development of the health care work unit (OPEN UNI), 6 op  
ay352315A: Health Care Today (OPEN UNI), 3 op  
ayA791404: Health Education, Basic Studies (OPEN UNI), 25 op  
ayA791407: Health Education, Intermediate Studies (OPEN UNI), 35 op  
ayA544702: Health Management Science, intermediate studies (OPEN UNI), 36 op  
ayA544701: Health Management Science, basic studies (OPEN UNI), 25 op  
ay351137P-01: Health administration I, part 1 (OPEN UNI), 3,5 op  
ay351137P-02: Health administration I, part 2 (Introduction to health administration) (OPEN UNI), 3,5 op  
ay352215A-01: Health administration II, part 1 (OPEN UNI), 3 op  
ay352215A-02: Health administration II, part 2 (OPEN UNI), 5 op  
ay351137P: Health administration sciece I (OPEN UNI), 7 op  
ay352215A: Health administration science II (OPEN UNI), 8 op  
ay040404A: Health technology and rehabilitation (OPEN UNI), 5 op  
ay350031P-03: History of nursing (OPEN UNI), 6 op  
ay402963A: Humans and Pharmaceuticals (OPEN UNI), 2 op  
ay402956P: Improving Health Through Nutrition (OPEN UNI), 5 op  
ay402960P: Introduction to Health Education Studies (OPEN UNI), 5 op  
ay351138P: Legal aspects of health care (OPEN UNI), 4 op  
ayA540301: Nursing Science, basic studies (OPEN UNI), 25 op  
ayA540302: Nursing Science, intermediate studies (OPEN UNI), 35 op  
ay350031P-01: Nursing in social and health care (OPEN UNI), 6 op  
ay351101P: Nursing science I (OPEN UNI), 5 op  
ay402962A: Oral Health (OPEN UNI), 5 op  
ay402958A: Physical Exercise in Promoting Health (OPEN UNI), 5 op

ayA549501: Rehabilitation Science (OPEN UNI), 25 op  
 ay040610P: Rehabilitation client groups, clientship and collaboration (OPEN UNI), 5 op  
 ay351008P: Research methods (basic) (OPEN UNI), 2 op  
 ay352107A: Research methods I (OPEN UNI), 6 op  
 ay350031P-04: Research of nursing science (OPEN UNI), 5 op  
 ay352114A-01: Seminars (OPEN UNI), 10 op  
 ay350005Y: Statistics (OPEN UNI), 6 op  
 ay402959A: Supporting Sexual Growth and Development (OPEN UNI), 5 op  
 ay402952A: The Social Well-being of Children and Adolescents (OPEN UNI), 5 op  
 ay402954A: The Social Well-being of Children and Adolescents (OPEN UNI), 4 op  
 ay040616P: The services of rehabilitation I (OPEN UNI), 5 op  
 ay350031P: Theoretical basis of social and health care (OPEN UNI), 23 op  
 ay352221A: Theory development and evaluation (OPEN UNI), 3 - 5 op  
 ay402964A: Thesis (OPEN UNI), 5 op  
 ay352146A: Training in administration (OPEN UNI), 6 op  
 ay040618P: Usebility I (OPEN UNI), 5 op

## Opintojaksojen kuvaukset

### Tutkintorakenteisiin kuulumattomien opintokokonaisuuksien ja -jaksojen kuvaukset

#### **ay352147A: A multiprofessional management in health care (OPEN UNI), 8 op**

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Intermediate Studies

**Laji:** Course

**Vastuuuksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

352147A A multiprofessional management in health care 8.0 op

**ECTS Credits:**

8 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

Learning outcomes: Students are able to interpret challenging situations related to multiprofessional management in health care.

**Contents:**

Theories and basic concepts in health management.

**Learning activities and teaching methods:**

Lectures 10 hours. ArgueGraph 10 hours, independent study.

**Recommended or required reading:**

Virtanen, P. & Stenvall, J.: Julkinen johtaminen. Tietosanoma, 2010

Kauhanen, J.: Henkilöstövoimavarojen johtaminen. WSOY, Helsinki Porvoo 2006.

Topical research.

**Assessment methods and criteria:**

Participation in seminars, essay written as team work and individual essay.

Read more about [assessment criteria](#) at the University of Oulu webpage.

**Grading:**

1-5/ Failed. Total grade: essay written as team work and individual essay both make up 50% of the grade.

**Person responsible:**

Professor, lecturer and doctoral candidate in Health administration science.

## **ay352214A: Administrative law and public employment and labour law (OPEN UNI), 8 op**

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Intermediate Studies

**Laji:** Course

**Vastuuysikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

352214A    Administrative law and public employment and labour law    8.0 op

**ECTS Credits:**

8 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

Learning outcomes: Upon completion the course the student:

- is able to analyze legal relations between government officials and citizen
- is able to define administrative decision making process and legal settings
- is able to define assumes basic concepts of administrative law needed in processing administrative matters.
- is able to define official- and labour law, gets general idea of conflicts regulation and settlement concerning service and collective bargaining contract.
- is able to define aware of solutions to conflicts concerning employment and contract of employment.

**Contents:**

Part I: Basic concepts of administrative law, basics of good governance, processing administrative matters and decision making, legal effects of administrative actions, qualifications and invalidity and enforcement and forces, citizens legal protection in administration.

Part II: Basics of official- and labour law, conflicts regulation and settlement concerning service and collective bargaining contract. Solutions to conflicts concerning employment and contract of employment.

**Learning activities and teaching methods:**

Lectures 30 hours.

**Recommended or required reading:**

Part I:

Kulla, H.: Hallintomenettelyn perusteet. Talentum, Helsinki 2003.

Säädökset niihin myöhemmin tehtyine muutoksineen:

Perustuslaki, 2 luku, hallintolaki (6.6.2003/434)

Laki viranomaisten toiminnan julkisuudesta (21.5.1999/621)

Kuntalaki (17.3.1995/365)

Hallintolainkäytölaki (26.7.1996/586).

Part II:

Bruun, N., Mäenpää, O. & Tuori, K.: Virkamiesten oikeusasema. Otava, Helsinki 1995.

Regulations according to separate list.

**Assessment methods and criteria:**

Exam

Read more about [assessment criteria](#) at the University of Oulu webpage.

**Grading:**

1-5/failed.

**Person responsible:**

Lecturers

**Other information:**

No substitution by earlier studies

## **ay402953A: Advanced Course in the Didactics of Health Studies (OPEN UNI), 5 op**

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Intermediate Studies

**Laji:** Course

**Vastuuuksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

402953A Advanced Course in the Didactics of Health Studies 5.0 op

**ECTS Credits:**

6 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

- plan the contents and methods of teaching in health education in a goal-oriented way, taking into account different learners and the needs of the group
- build and reform teaching in health education and practices related to it from the viewpoint of developing the school
- consider his/her educational and health awareness and abilities to promote health from the educational point of view
- evaluate his/her ideas and activities as a health educator

**Contents:**

- the meaning of the worldview in health education
- development of the health education curriculum
- core content analysis and pupil analysis
- pedagogical approaches and related teaching methods
- learning materials in support of teaching and learning activities
- assessment of teaching and learning in general and in the matriculation examinations
- development of the school in promoting health

**Mode of delivery:**

Online studies

**Target group:**

Minor subject students

**Prerequisites and co-requisites:**

Basic studies

**Recommended optional programme components:**

No

**Recommended or required reading:**

Koskinen-Ollonqvist, P., Rouvinen-Wilén, P. & Palojärvi, E. (2003). Elämyksellisyys nuorten pähdekasvatuksessa. Paikallistoiminnan arviointikokonaisuuden, elämyksellisten pähderekriteerien ja draamojen arviointi. Terveyden edistämisen keskus, arviointipalvelu. Helsinki, Trio-Offset.

Soikkeli, M. (2002). Miten puhua huumeista. Stakes, ehkäisevä pähdetyö. Jyväskylä, Gummerus.

Jeronen, E. et al. (toim.) (2009). Terveystietoa oppimaan ja opettamaan. Jyväskylä, Jyväskylän yliopisto

Availability of the course books can be checked [here](#).

**Assessment methods and criteria:**

Participation in teaching and literalwork

Read more about [assessment criteria](#) at the University of Oulu webpage.

**Grading:**

0-5

**Person responsible:**

Kristiina Simojoki

**Working life cooperation:**

No

## **ay350007Y: Applied statistics and ADP (OPEN UNI), 5 op**

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** General Studies

**Laji:** Course

**Vastuuysikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

350007Y Statistical computing 5.0 op

**ECTS Credits:**

5 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

Learning outcomes: The student can design data collection, she/he can enter the data to computer and can use statistical software to analyze the data. The student is able to report results and can critically read research articles

**Contents:**

Statistical research. Planning of statistical computing. Data entry. Use of statistical software. Variable distributions. Variable transforms. Comparing groups. Repeated measurements. Correlation. Multivariate methods.

**Mode of delivery:**

Blended teaching

**Learning activities and teaching methods:**

Lectures 12 hours, group work 21 hours, a practical projects and home-works.

**Target group:**

Students in Degree Program in Nursing Science, Teacher Training Program in Health Science and Degree Program in Health Administration science.

**Prerequisites and co-requisites:**

Participation prerequisites completion of the course 350005Y Statistics.

**Recommended optional programme components:**

This study unit is a part of studies in research methods.

**Recommended or required reading:**

Uhari M & Nieminen P. 2001. Epidemiologia ja biostatistiikka. Duodecim.

**Assessment methods and criteria:**

Exam, written report about data analysis and participation in workgroups.

Read more about [assessment criteria](#) at the University of Oulu webpage.

**Grading:**

Pass / Failed

**Person responsible:**

Pentti Nieminen, Ph.D., Faculty of Medicine

**Working life cooperation:**

No

## ay352114A: Bachelor Thesis and Written Maturity Test (OPEN UNI), 6 op

**Opiskelumuoto:** Intermediate Studies

**Laji:** Course

**Vastuuysikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

352114A Bachelor thesis 6.0 op

**ECTS Credits:**

10 ECTS

**Language of instruction:**

Finnish

**Timing:**

2nd year autumn term

**Learning outcomes:**

Learning outcomes: After completing the course the student is able to write Bachelor's thesis based on research literature or empirical data according to principles of scientific research. The student is able to present the research.

**Contents:**

Planning, carrying on and evaluating the research process. Writing a Bachelor's thesis based on literature and/or empirical data.

**Mode of delivery:**

Contact teaching

**Learning activities and teaching methods:**

Individual studying, group guidance and seminar.

**Target group:**

Students in Degree program in nursing science, Teacher training program in health science, Degree program in health administration science, Degree program in radiography and Degree program in clinical laboratory science.

**Prerequisites and co-requisites:**

Please see the recommended optional programme components

**Recommended optional programme components:**

350008P Research methods (basic) and 352107A Research methods I.

**Recommended or required reading:**

Literature related to the topic of the Bachelor's thesis.

**Assessment methods and criteria:**

Writing the Bachelor's thesis and presenting it. Written maturity test.

Read more about [assessment criteria](#) at the University of Oulu webpage.

**Grading:**

Pass / Fail

**Person responsible:**

Doctoral candidate and lecturer

**Working life cooperation:**

No

## ay040600P: Basic studies in rehabilitation (OPEN UNI), 5 op

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Basic Studies

**Laji:** Course

**Vastuuuksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

040600P Basic studies in rehabilitation 5.0 op

**ECTS Credits:**

5 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

Upon completion of the course the student should be able to view rehabilitation as an inter-professional whole, a multi- and interdisciplinary field of study, a social activity system, and a process of change concerning the individual and his/her environment. The student should have a general understanding of how the process of rehabilitation has changed and developed as society has progressed. The student should be able to use essential basic terminology of the field and understand the theoretical viewpoints behind the concepts.

**Contents:**

The concept of rehabilitation and its different definitions. The current state of rehabilitation based on historical development and central trends. Rehabilitation and values. Rehabilitation as a social activity system in the welfare

state. Rehabilitation as a learning process and as a process of change for the individual and his/her environment. Ability to function, empowerment, and social participation. The basics of the ecological and disability-oriented models of rehabilitation.

**Mode of delivery:**

Online studies

**Recommended or required reading:**

1. Online material
2. Järvinen, A. & Härkäpää, K.: Kuntoutuksen perusteet. WSOY, 2011.
3. Kallanranta, T. & Rissanen, P. & Vilkkumaa I. (eds.) 2001: Kuntoutus. Duodecim (634 p.) or the newer version Kallanranta, T. & Rissanen, P. & Suikkanen, A. (eds.): Kuntoutus. Duodecim.

## ay402961P: Basics of Anatomy and Physiology (OPEN UNI), 5 op

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Basic Studies

**Laji:** Course

**Vastuuysikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

402961P Basics of Anatomy and Physiology 5.0 op

**ECTS Credits:**

6 credits

**Language of instruction:**

Finnish

**Learning outcomes:**

Having completed the course, the student knows how to

- explain the structure and operation of eukaryotic cells
- explain the construction of tissue from different types of cell and matrix
- explain the structure and cooperation of different organ systems

**Contents:**

- structure of cells and tissue
- liquid states and electrolytes of the organism
- nervous system and sense organs
- hormones
- sensor and motor activity
- respiration
- blood circulation
- nutrition
- metabolism

**Mode of delivery:**

Online studies

**Target group:**

Minor subject student in all faculties

**Prerequisites and co-requisites:**

none

**Recommended optional programme components:**

Other courses in Health Education

**Recommended or required reading:**

Bjälle, J. G. et al. (1999). Ihminen. Fysiologia ja anatomia. Porvoo, WSOY.

**OR**

Leppäläluoto, J. et al. (2008) Anatomia ja fysiologia – Rakenteesta toimintaan. Porvoo, WSOY.

None

## **ay402951P: Basics of the Didactics of Health Education and Health Studies (OPEN UNI), 5 op**

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Basic Studies

**Laji:** Course

**Vastuuysikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

402951P Basics of the Didactics of Health Education 5.0 op

**ECTS Credits:**

5 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

- to take a comprehensive look at the individual and collective starting-points for health promotion and health education
- to choose contents and didactic teaching methods of health education from the perspective of reinforcing the community's knowledge of health
- plan different learning environment, tools and learning materials and compare their applicability from the viewpoint of the achievement of goals for learning
- choose and plan forms, methods and ways of teaching that support the learner's purposeful work and achievement of goals
- choose and plan various assessment methods and plan and implement the assessment
- explain the ethical responsibility associated with teaching

**Contents:**

Premises of health education

- the features of health-promoting individuals and communities
- health literacy

Planning as a pedagogical activity

- health education curriculum
- principles of planning, implementing, evaluating health education

Learning environments, tools and learning materials in support of the learner's growth and development

- choice and significance of learning environments, tools and learning materials
- ICT in support of health education

Forms, methods and ways of teaching and their development

- the role and tasks of the teacher and learner
- different working methods

Assessment of teaching and learning

- principles, forms and development of assessment

**Mode of delivery:**

Online studies

**Target group:**

Minor subject students in all faculties

**Prerequisites and co-requisites:**

No

**Recommended optional programme components:**

No

**Recommended or required reading:**

Clift, S. & Jensen, B.B. (toim.) ( 2005). The Health Promoting School: International Advances in Theory, Evaluation and Practice.

Jeronen, E. et al. (toim.) (2009). Terveystietoa oppimaan ja opettamaan. Jyväskylä, Jyväskylän yliopisto. You can check for the availability of course books [here](#).

## **ay402103P: Challenges to the Psychological Development of Children and Adolescents (OPEN UNI), 5 op**

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Basic Studies

**Laji:** Course

**Vastuuuksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

402103P Psychological Development of Children and Adolescents 5.0 op

**ECTS Credits:**

5 credits

**Language of instruction:**

Finnish

**Learning outcomes:**

The student knows how to

- identify the psychological way to think and apply it to consider the course of children's and adolescents' life
- distinguish between different viewpoints on the challenges of mental development and distinguish between the challenges of growth, learning and socialisation
- identify the main challenges to children' and adolescents' growth in different phases of their lives and understand the meaning of childhood and adolescence growth for later life and wellbeing
- explain mental disorders as disorders of growth, and identify the basic categories of mental disorders

**Contents:**

- mental growth and development, special features of growth in adolescence
- challenges of growth at different ages
- mental problems and disorders, mental health
- self-knowledge, mental balance, development of emotional life

**Learning activities and teaching methods:**

Online studies

**Target group:**

Minor subject students in all faculties

**Prerequisites and co-requisites:**

none

**Recommended optional programme components:**

none

**Recommended or required reading:**

Aalberg, V. & Siimes, M.A. (1999 or newer edition). Lapsesta aikuiseksi: Nuoren kypsyminen naiseksi tai mieheksi. Kustannusosakeyhtiö Nemo.

## ay402957A: Coping and Intoxication (OPEN UNI), 5 op

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Intermediate Studies

**Laji:** Course

**Vastuuysikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

402957A Drugs and Health 5.0 op

**ECTS Credits:**

4 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

Having completed the course the student is able to

- name factors related to the connection between life control and drugs
- explain the connection between drug abuse and welfare

**Contents:**

- what drugs are
- how drugs influence
- why drugs cause addiction
- how it is cured

**Mode of delivery:**

Online studies

**Target group:**

Minur subject students

**Prerequisites and co-requisites:**

Basic Studies

**Recommended optional programme components:**

Other courses in Health Education

**Recommended or required reading:**

**ay040617P: Development and evaluation of rehabilitation science I (OPEN UNI), 5 op**

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Basic Studies

**Laji:** Course

**Vastuuuksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

040617P Development and evaluation of rehabilitation science I 5.0 op

**ECTS Credits:**

5 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

Upon completion of the course:

- 1) The student should have an overall understanding of the purposes of rehabilitation science and the essential research questions in the field. The student should be familiar with the common evaluation and research methods used in the field and be able to evaluate the applicability of these methods to different research questions. The student familiarises himself/herself with several example studies concerning sound practices and the quality and effectiveness of rehabilitation conducted using various different research methods. The student also familiarises himself/herself with several on-going EU programmes and examples of development programmes and projects initiated by different ministries and the Social Insurance Institution of Finland.
- 2) The student should be familiar with the basic structure of a research article or publication (introduction, theoretical background, aims and research questions, methods, ethical questions, results, and conclusions and reflection) and its different applications. The student should be able to critically analyse scientific publications and make improvement suggestions.

**Contents:**

- 1) Different fields of rehabilitation research and relevant research strategies. Effectiveness evaluations and the evaluation of rehabilitation processes and sound rehabilitation practices.
- 2) Online material: research and review publications (available on Optima).
- 3) On-going European Social Fund programme and various national projects initiated by different ministries.
- 4) Analysis of one research article from the field of rehabilitation science. Students are divided into small groups to answer questions concerning the goals, results, and conclusions of the article.

**Mode of delivery:**

Online studies

**Recommended or required reading:**

1. Aalto, A-M. ym. (eds.) 2002: Kannattaako kuntoutus? Asianantijakatsaus eräiden kuntoutusmuotojen vaikuttavuudesta Stakes (158 s.), Helsinki,;
2. Järvinen, A. et al. 2003: Kuntoutuksen tutkimus: tehtävät ja mahdollisuudet. Kuntoutus 2003:4:20-32;
3. Robson C. 2001: Käytännön arvioinnin perusteet. Tammi (222 s.). One article for a studygroup to cover (an article can be found in Optima).

## **ay351145P: Evaluation and development of the health care work unit (OPEN UNI), 6 op**

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Basic Studies

**Laji:** Course

**Vastuuuksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

351145P    Evaluation and development of the health care work unit    6.0 op

**ECTS Credits:**

6 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

Learning outcomes: Students are able to apply concepts health care work community and it's development in a project plan. Students are able to name key challenges of health care projects. Students are able to design a project in a group and draft a project plan.

**Contents:**

Key focal concepts in development of health care work community and the main themes of research. Project planning, implementation and evaluation.

**Learning activities and teaching methods:**

Lectures (schema learning and mindmapping) 6 hours, practical exercises 6 hours, projectwork and independent studying.

**Assessment methods and criteria:**

Lectures, participating seminars, projectwork.

Read more about [assessment criteria](#) at the University of Oulu webpage.

**Grading:**

1-5/ Failed. Self-evaluation passed/failed, peer-review 50% and teacher evaluation 50%.

**Person responsible:**

Lecturer of Health management science

**ay352315A: Health Care Today (OPEN UNI), 3 op**

**Voimassaolo:** 01.08.2012 - 31.07.2013

**Opiskelumuoto:** Intermediate Studies

**Laji:** Course

**Vastuuuyksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

352315A    Health Care Today    3.0 op

**ECTS Credits:**

5 ECTS

**Language of instruction:**

Finnish / English

**Learning outcomes:**

Learning outcomes: Upon completion the course the student

- knows topical questions and background / basis of health care, and content of main concepts in health care
- is able to participate in a discussion about topical questions of health care
- is able to search the scientific information for topic of health care

**Contents:**

Current questions of health care

**Mode of delivery:**

Contact teaching

**Learning activities and teaching methods:**

Participation to web based interaction 10 h and written work 71 h.

**Target group:**

Students in Degree program in nursing science, Teacher training program in health science, Degree program in health administration science, Degree program in radiography and Degree program in clinical laboratory science.

**Prerequisites and co-requisites:**

No

**Recommended or required reading:**

Current national and international scientific articles.

**Assessment methods and criteria:**

Active participation in lectures and exercises, group-working, and writing an essay.

**Grading:**

Pass / Fail

**Person responsible:**

Senior lecturer

**Working life cooperation:**

No

**ayA791404: Health Education, Basic Studies (OPEN UNI), 25 op**

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Basic Studies

**Laji:** Study module

**Vastuuuyksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

A791404 Health Education, Basic Studies 25.0 op

**Voidaan suorittaa useasti:** Kyllä

**ECTS Credits:**

25 ECTS

**Language of instruction:**

Finnish

**Timing:**

1.-5. year

**Learning outcomes:**

Having completed the Basic Studies, the student identifies the individual, social and environmental factors connected with health, health behavior, health challenges and most common illnesses among all population groups, especially children and adolescents. The student also knows how to describe the meaning for health of the biological processes in the organs and of mental and social factors. S/he also knows how to apply the principles of subject didactics to promote the health of people in different ages, especially children and adolescents, and to reinforce their knowledge of health. S/he knows how to solve ethical issues connected with promotion of health and with health education, and knows how to explain both the individual and the community's responsibility for healthy life.

**Contents:**

The module consists of the following courses:

Basics of Health Education (5 credits) – 402960P

Challenges of Mental Development among Children and Adolescents (5 credits) – 402103P

Nutrition in Promotion of Health (4 credits) – 402956P

Basics of Anatomy and Physiology (6 credits) – 402961P

Basics of the Didactics of Health Education (5 credits) – 402951P

**Mode of delivery:**

Face-to-face teaching

**Learning activities and teaching methods:**

Lectures, group work sessions

**Target group:**

Health Education minor subject students

**Prerequisites and co-requisites:**

no

**Recommended optional programme components:**

no

**Recommended or required reading:**

To be announced for each course specifically

**Assessment methods and criteria:**

participating in teaching, literal work, exams

The teaching is arranged by the Open University

## ayA791407: Health Education, Intermediate Studies (OPEN UNI), 35 op

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Intermediate Studies

**Laji:** Study module

**Vastuuuksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

A791407 Health Education, Intermediate Studies 35.0 op

**ECTS Credits:**

35 credits

**Language of instruction:**

Finnish

**Timing:**

2.-5. year

**Learning outcomes:**

Having completed the subject studies, the student is able to explain factors related to the health and welfare, health behavior, health challenges and health promotion of different population groups, especially children and adolescents. The student also knows how to evaluate his/her ability to reinforce the health knowledge of children and adolescents and how to build the contents of health education teaching and learning in a goal-oriented way. S/he also knows how to evaluate their relationship to the promotion of health at school and to develop their own activities in promoting health.

**Contents:**

The module consists of the following courses:

Life Control and Drugs (4 credits) – 402957A

Physical Exercise in Promoting Health (3 credits) – 402958A

Mental Welfare and Interaction among Children and Adolescents (4 credits) – 402954A

Social Welfare of Children and Adolescents (4 credits) – 409252A

Supporting Sexual Growth And Development (3 credits) – 402959A

Oral Health (3 credits) – 402963A

Advanced Course in the Didactics of Health Education (6 credits) – 402953A

Thesis (6 credits) – 402964A

**Mode of delivery:**

Face-to-face and web-based teaching

**Learning activities and teaching methods:**

Lectures, group sessions, online studies, independent work

**Target group:**

Students pursuing studies in the minor of Health Education

**Prerequisites and co-requisites:**

Health education basic studies

**Recommended optional programme components:**

no

**Recommended or required reading:**

To be announced for each specific course

**Assessment methods and criteria:**

Participation in teaching, written work, participation in online discussions, learning assignments, exams

**Language of instruction:**

Finnish

**Learning outcomes:**

Having completed the course, the student knows how to

- explain the main features of the development of the teeth and occlusion and the main deviations in them
- identifies the most common illnesses that may endanger the health of the mouth
- name ways to prevent illnesses of and accidents to the mouth
- give examples of the main features of the treatment of deviations in occlusion and oral diseases

**Contents:**

- development of occlusion and the teeth, their deviations and treatment
- accidents of the mouth and teeth, their prevention and care
- main causes of oral diseases
- prevention and care of oral and dental diseases at different stages of life

**Mode of delivery:**

Online studies

**Target group:**

Minor subject students in all faculties

**Prerequisites and co-requisites:**

Basic Studies

**Recommended optional programme components:**

Other courses in Health Education

**Recommended or required reading:**

Jormanainen, T. & Järvinen, S. (2008) Suunhoito-opas yläkouluille. Hammaslääkäriliiton kustannus.

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Intermediate Studies

**Laji:** Course

**Vastuuuksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

402958A Improving Health through Exercise 5.0 op

**ECTS Credits:**

3 credits

**Language of instruction:**

Finnish

**Learning outcomes:**

Having completed the course, the student knows how to

- figure out the connections between physical activity, physical condition and health
- give examples of methods to measure physical activity and conditions
- identify the meaning of physical exercise recommendations and physical exercise from the viewpoint of fostering mental health in different contexts

**Contents:**

- the meaning of physical activity and condition for health
- method to measure physical activity and condition
- means to promote physical exercise in different contexts
- current issues

**Mode of delivery:**

Online studies

**Target group:**

Minor subject students in all faculties

## ay352107A: Research methods I (OPEN UNI), 6 op

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Intermediate Studies

**Laji:** Course

**Vastuuysikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

352107A Research methods I 6.0 op

**ECTS Credits:**

6 ECTS

**Language of instruction:**

Finnish / English

**Learning outcomes:**

Learning outcomes:

The student gets familiar with methodological issues and the process of scientific research.

Upon completion the student:

- is able to formulate a research problem and research purpose and design a research
- is able to review and evaluate scientific research
- is able to design qualitative and quantitative research methods
- knows the requirements of a good scientific writing
- is able to evaluate ethical considerations
- is able to evaluate the basic criteria to assess the quality of quantitative and qualitative studies

**Contents:**

The overview of research process, literature reviews, data collection, analysis of research data, reliability, addressing ethical issues, writing a research proposal.

**Mode of delivery:**

Contact teaching

**Learning activities and teaching methods:**

Lectures and practice 30 hours, independent studying and exam 130 hours.

**Target group:**

Students in Degree program in nursing science, Teacher training program in health science, Degree program in health administration science, Degree program in radiography and Degree program in clinical laboratory science.

**Prerequisites and co-requisites:**

Please see the recommended optional programme components.

**Recommended optional programme components:**

Research methods (basic).

**Recommended or required reading:**

Polit DF &amp; Beck CT. 2011. Nursing Research. Generating and assessing evidence for nursing practice. Lippincott Williams &amp; Wilkins, Philadelphia.

Topical scientific articles.

**Leikkaavuudet:**

350005Y Statistics 6.0 op

**ECTS Credits:**

6 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

Learning outcomes: Student is able to get numeric observational data and plan quantitative research process. Student is able to describe things which are examined by tables, figures and parameters. Student is able to use the principles of distributions and test theories and statistic reasoning methods and models in quantitative data.

**Contents:**

The basic concept of statistic. Sampling methods. Observation matrix and scale. one-dimensional distribution and its parameters. Two-dimensional distribution and its interdependence numbers. Random variable and its distribution. Discrete variable and continuous probably variable. Statistical reasoning. Estimating, significant testing.

**Mode of delivery:**

The course will be devided in two parts: I= Descriptive statics which will be teached on autumn term and II= Reasoning statics which will be teached on spring term.

**Learning activities and teaching methods:**

Lectures 40 hours. Individal and group work 50 hours.

**Target group:**

Students in Degree program in nursing science, Teacher training program in health science, Degree program in health administration science, Degree program in radiography and Degree program in clinical laboratory science.

**Prerequisites and co-requisites:**

Basics of mathics, sum,- subtraction,- multiplication- and division. Power, square root.

**Recommended optional programme components:**

This course need to be completed before attending to the course 350007Y Applied statistics and ADP.

**Recommended or required reading:**

## ay040616P: The services of rehabilitation I (OPEN UNI), 5 op

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Basic Studies

**Laji:** Course

**Vastuuuksikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

040616P The services of rehabilitation I 5.0 op

**ECTS Credits:**

5 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

Upon completion of the course the student should be able to view the different service systems and networks of rehabilitation from the perspectives of society, community, and rehabilitees of different types and ages. The student should be able to critically analyse the problematic areas of rehabilitation and questions of responsibility between service systems. The student should also have grasped the basics of client-specific rehabilitation planning.

**Contents:**

The course familiarises the student with the service systems of medical, professional, social, and educational rehabilitation and the relevant legislation. The regional applications of service systems are also discussed, as is the distribution of work and responsibility. Additionally, rehabilitation and service plans are discussed in terms of significance and operational requirements.

## ay040618P: Usability I (OPEN UNI), 5 op

**Voimassaolo:** 01.08.2012 -

**Opiskelumuoto:** Basic Studies

**Laji:** Course

**Vastuuysikkö:** Open University, Oulu

**Arvostelu:** 1 - 5, pass, fail

**Opetus suunnattu:** Open University, Oulu

**Opintokohteen kielet:** Finnish

**Leikkaavuudet:**

040618P Useability I 5.0 op

**ECTS Credits:**

5 ECTS

**Language of instruction:**

Finnish

**Learning outcomes:**

Upon completion of the course the student should have a broad understanding of what is necessary to create and maintain an accessible physical, mental, and social environment for the rehabilitee. The student should also be able to evaluate these environments. The student should be able to grasp how significant a requirement accessibility is to the maximal function and work ability of the rehabilitee.

**Contents:**

Central topics discussed include: dimensions of functionality in different age groups, problem of discrimination, community planning, accessibility solutions in the workplace, and the challenges modern communication and the information society pose to rehabilitation. Additionally, the ICF model is used to evaluate the rehabilitee's environment and ability to function.

**Learning activities and teaching methods:**

Online studies

**Recommended or required reading:**

1. Toimintakyvyn, toimintarajoitteiden ja terveyden kansainvälinen luokitus ICF. Stakes 2004.
